PRESS RELEASE

THE COMMUNITY STARTS IMPLEMENTING THE VISION FOR THE PIRANË VILLAGE PARK

The inhabitants of Piranë have started implementing the vision for the village park, under the leadership of the village council and village mayor Mr. Skender Elshani. EC has supported residents and village council in visioning the village park, producing the visualized project based on the needs and requests of the residents themselves. The main purpose of this activity is that this public space to be used by the village residents.

This version of this proposal was drafted after a number of meetings and many discussions with the village headship as well as various village community groups. In the vision drafted based on the needs of village residents, the involved experts have announced that the vision for the village park proposes solutions for access and free movement of all persons, accommodation of some activities as well as the aspect of comfort and security. Within the park, there will be green spaces and benches, a playground for children as well as some spaces for different activities.

The first phase of the works according to this joint vision (cleaning and leveling of the space, filling with soil, as well as grass planting) has voluntarily started to be realized by the village mayor Mr. Skender Elshani, with the support of the inhabitants.

For the full realization of this vision, EC and the mayor submitted a request to the municipality of Prizren, respectively the Directorate of Public Services, for financial support. The vision presented for the Piranë village park is open for suggestions, and EC welcomes the contribution of other stakeholders until its finalization and realization.

“Inclusive City...” is a project of EC, which aims to articulate the needs of community groups and transform them into viable urban plans for the municipality of Prizren. Community groups which are working on this project are distributed in different neighborhoods of the city.

Sincerely,
Hajrulla Ceku, EC

“Inclusive city” project – Promotion and dissemination of Participatory urban planning methodology “is supported Financially by Olof Palme International Center, which is supported by the Swedish Government
