**Press release
The House of Hisari Family demolished**

In the Historic Center of Prizren the House of Hisari Family which was protected by the Law for the Historic Center of Prizren was demolished. This house is listed in Annex II of this Law, respectively in the List of Cultural Monuments at the Historic Center of Prizren. The recordings tell that the house of Hilmi Hisari belonged to the XIX century.

According to the initial information received from local cultural heritage authorities, the building has been in poor conditions for housing. In this way, the institutions needed to engage in two directions in due time: to ensure the lives of the inhabitants and also to protect the monument.

This house according to the researchers had historical, scientific, artistic, identity, economic and functional values.

EC Ma Ndryshe has repeatedly reacted to the destruction of cultural monuments in Prizren, especially in the Historic Center of the city, and reiterates the position that it is the last time that state bodies act seriously for full implementation of the legislation in relation to this protected area, always taking into account the needs for citizens' security of life.
